

Sparrow Class News and Homework

To be handed in on Wednesday 29th April

No photos as school network is unavailable.

Maths: This week in maths we have been experimenting with symmetry and rotation using the union jack flag. On Friday, we also took part in some problem solving activities expanding our depth of understanding eith subtraction.

English: During the week we have been recounting the exciting events of our BoB day. Using our existing knowledge of recount writing, we explored different time connectives, and openers to use in order to retell the day's activities to the best of our ability. Additionally, we have been building on our speaking and listening skills by rehearsing our class assembly throughout the week.

Topic: Throughout the week, our focus has been on our capital city, London, and some of its famous landmarks. We created London night time scenes using chalks and pastels and made clay models of Big Ben, Tower Bridge and the London eye.

In science, we enjoyed an exciting assembly with Mrs Green, a physics teacher from Robert Smyth Academy with rockets, meteors, dry ice and infra-red cameras.

Homework Tasks

This week's times tables to practice are:

8's

TASK: Art – Create a London silhouette skyline picture..

Pupil feedback	Parent feedback	Teacher feedback
