

At Clipston, we use Read Write Inc. as our Systematic Synthetic Phonics programme.

Phonics Sentence Sheets are available here to support learning at home.

You can use these resources in many different ways, including:

- Read the sentences / phrases
- Dictate them (or individual words) to your child for them to write
- Cut them up and ask you child to arrange the words back into a sentence

Segmenting the words into the individual sounds and blending them back again to make the whole word are two different but vital skills that children need to be able to do to become fluent readers.

If you need further help with how to say the sounds correctly, you can hear them at this link: <https://www.youtube.com/watch?v=s6OiU2h3sUI>

The sentence sheets are linked directly with the book your child's school reading book, so you can simply select the same colour sheet as the book your child has in their Reading Wallet.

Thank you for your support with Reading and Phonics.
